

Tork Universal Wischtuch 320 Kleinrolle

Artikel: 129265

System: W5 – Vario Rollen System

Lagen: 2

Farbe: Weiß

Bedruckt: Nein

Geprägt:

Rollenbreite: 23 cm

Rollenlänge: 55 m

Blattanzahl: 200

Blattlänge: 27.5 cm

Rollendurchmesser: 14 cm

Produkteigenschaften

- Für allgemeine Wischaufgaben, die ein reißfestes und saugfähiges Tuch erfordern
- Optimales Preis-Leistungs-Verhältnis
- Strapazierfähig und nassfest

Versanddaten

Verbrauchseinheit:

EAN: 7310791182940

Stück: 1

Höhe: 230 mm

Breite: 140 mm

Länge: 140 mm

Volumen: 4.5 dm³

Nettogewicht: 443 g

Bruttogewicht: 457 g

Transporteinheit:

EAN: 7310791057682

Stück: 10

Verbrauchseinheiten: 10

Material: Carton

Höhe: 247 mm

Breite: 292 mm

Länge: 721 mm

Volumen: 52.0 dm³

Nettogewicht: 4.43 kg

Bruttogewicht: 5.04 kg

Content

Recycled fibres, Chemicals

Material

Recycled fibres Recovered paper can be produced both from collected newsprint, magazines and office waste. The paper is washed with water and treated with chemicals under high temperature and then filtered. Different fibres demand different processes and this determines the end product properties, and makes the fibre type (recovered or virgin) less important. The environmental benefits and economic feasibility of recovered paper as a raw material source depend on its availability, transport distance and the quality of the collected material.

Bleaching of fibres

Bleaching is a cleaning process of the fibres and the aim is to achieve a bright pulp, but also to get a certain purity of the fibre in order to achieve the demands for hygiene products and in some cases to meet the requirements for food safety. There are different methods used today for bleaching ECF (elementary chlorine free) (where chlorine dioxide is used), and TCF (totally chlorine free) where ozone, oxygen and hydrogen peroxide is used.

Chemicals

The chemicals used in the process as well as the functional chemicals are assessed from an environmental, occupational health and safety and product safety point of view. The used functional chemicals are: Wet strength agent Dry strength agent Dye Fixing agents Fluorescent whitening agent Glue Softeners The process chemicals are: Antipitch Protection agent Yankee coating Defoamer Dispersing agents and surfactants pH and charge control Retention aids Broke treatment chemicals Drainage aid Packaging Fulfilment of Packaging and Packaging Waste Directive (94/62/EC): Yes Environmental label = Ecolabel This product does not have any ecolabel.
