

Tork Advanced Innenabrollung 415 Performance

Artikel: 130034
System: M2 – Innenabrollung System
Schichten: 1
Farbe: Weiß
Drucken: Nein
Gaufrieren: Nein
Rollenbreite: 19.5 cm
Rollenlänge: 165 m
Blattanzahl: 471
Blattlänge: 35 cm
Rollendurchmesser: 19 cm

Produkteigenschaften

- Ideales Wischtuch für den vielfältigen Einsatz
- Voluminös, saugstark und weich
- Wirtschaftlich und langlebig

Versanddaten

Verbrauchseinheit:
EAN: 7322540119572
Stück: 1
Höhe: 195 mm
Breite: 190 mm
Länge: 190 mm
Volumen: 7.0 dm³
Nettogewicht: 837 g
Bruttogewicht: 888 g

Transporteinheit:
EAN: 7322540119589
Stück: 6
Verbrauchseinheiten: 6
Material: Carton
Höhe: 212 mm
Breite: 396 mm
Länge: 596 mm
Volumen: 50.0 dm³
Nettogewicht: 5.02 kg
Bruttogewicht: 5.58 kg

Content

Chemical Pulp, Chemicals

Material

Virgin fibre Virgin pulp fibres are produced out of softwood or hardwood. The process is either sulphite or sulphate delignification, meaning that e.g. lignins and resins are removed from cellulosic material.

Bleaching of fibres

Bleaching is a cleaning process of the fibres and the aim is to achieve a bright pulp, but also to get a certain purity of the fibre in order to achieve the demands for hygiene products and in some

cases to meet the requirements for food safety. There are different methods used today for bleaching ECF (elementary chlorine free) where chlorine dioxide is used, and TCF (totally chlorine free) where ozone, oxygen and hydrogen peroxide is used.

Chemicals

The chemicals used in the process as well as the functional chemicals are assessed from an environmental, occupational health and safety and product safety point of view. The used functional chemicals are: Wetstrength agent Dry strength agent Dye = if coloured Fixing agents Fluorescent whitening agent Glue = if used The process chemicals are: Antipitch Protection agent Yankee coating Defoamer Dispersing agents and surfactants pH and charge control Retention aids Broke treatment chemicals Drainage aid Packaging Fulfilment of Packaging and Packaging Waste Directive (94/62/EC): Yes Environmental label = Ecolabel This product does not have an ecolabel

Date of issue 2006-06-12

Revision date 2010-03-12

Production

Material produced at Mannheim mill and product converted at Kostheim mill, Germany, certified according to ISO 9001:2000, ISO 14001 and EMAS

Destruction

This product is mainly used for personal hygiene and can be collected together with household waste. If used for industrial processes check local regulations for destruction.
