attributes	The abrasive multifilament bristle strips effortlessly dissolve stubborn dirt, even on very uneven and rough floor coverings. Due to the high mechanical cleaning performance, the use of chemicals can be significantly reduced.		
type of use	Can be used both moist and wet.		
intended use	Particularly suitable for cleaning medium to heavily soiled floor coverings. Ideal for uneven, rough floor coverings such as porcelain, terrazo and anti-slip safety tiles.		
care instructions	 Please follow the instructions on the care label. Washable up to 95°C, a washing temperature of 60°C is recommended. Do not use fabric softener or bleach. Always wash separately by type.
