

QUALITY YOU CAN FEEL

The Semperclean® MC is a specialized protective glove made of natural latex and is suitable to the needs of medical-technical areas, such as laboratories, the pharmaceutical industry and R&D. The synthetic lining that makes the Semperclean® MC so easy to don is the result of many years of development and the web-like structure of the glove surface reduces friction resistance, improving the wearing comfort considerably. The fully anatomical shape with curved fingers helps to prevent hand fatigue and facilitates optimized instrument handling.

KEY FEATURES:

- Synthetic inner coating for easy donning
- A secure grip due to special outer surface treatment
- Anatomical shape reduces hand fatigue
- Available in 6 sizes, including intermediate sizes for optimal fit
- Recommended usage: laboratory, pharmaceutical industry, research & development
