

Tork Advanced Innenabrollung 420 blau

Artikel: 128207

System: M2 – Innenabrollung System

Lagen: 2

Farbe: Blau

Bedruckt: Nein

Geprägt:

Rollenbreite: 20 cm

Rollenlänge: 1.575 m

Blattanzahl: 450

Blattlänge: 35 cm

Rollendurchmesser: 19 cm

Produkteigenschaften

- Ideal zum Säubern von Händen und leicht verschmutzten Oberflächen

Versanddaten

Verbrauchseinheit:

EAN: 7310791218106

Stück: 1

Höhe: 200 mm

Breite: 190 mm

Länge: 190 mm

Volumen: 7.2 dm³

Nettogewicht: 1323 g

Bruttogewicht: 1325 g

Transporteinheit:

EAN: 7310791218113

Stück: 6

Verbrauchseinheiten: 6

Material: Plastic

Höhe: 200 mm

Breite: 380 mm

Länge: 570 mm

Volumen: 43.3 dm³

Nettogewicht: 7.94 kg

Bruttogewicht: 8.03 kg

Content

Recycled fibres, Chemicals

Material

Recycled fibres Recovered paper can be produced both from collected newsprint, magazines and office waste. The paper is washed with water and treated with chemicals under high temperature and then filtered. Different fibres demand different processes and this determines the end product properties, and makes the fibre type (recovered or virgin) less important. The environmental benefits and economic feasibility of recovered paper as a raw material source depend on its availability, transport distance and the quality of the collected material. Bleaching of fibres Bleaching is a cleaning process of the fibres and the aim is to achieve a bright pulp, but also to get a certain purity of the fibre in order to achieve the demands for hygiene products and in some cases to meet the requirements for food safety. There are different methods used today for bleaching ECF (elementary chlorine free) where chlorine dioxide is used, and TCF (totally chlorine

free) where ozone, oxygen and hydrogen peroxide is used.

Chemicals

The chemicals used in the process as well as the functional chemicals are assessed from an environmental, occupational health and safety and product safety point of view . The used functional chemicals are:Wetstrength agentDry strength agentDye Fixing agentsFluorescent whitening agentGlueSoftenersThe process chemicals are:AntipitchProtection agentYankee coatingDefoamerDispersing agents and surfactantspH and charge controlRetention aidsBroke treatment chemicalsDrainage aid

Product safety

The product fulfils the legislative requirements for food safety =Isega.

Packaging

Fulfilment of Packaging and Packaging Waste Directive (94/62/EC): Yes Environmental label = EcolabelThis product does not have any ecolabel.10-02-23

Production

This product is produced in Skelmersdale Mill, GB, certified according to ISO 9001, ISO 14001.

Destruction

This product is mainly used for personal hygiene and can be collected together with household waste. If used for industrial processes check local regulations for destruction.
